what philip did

Existence as a constant process of transformation and evolution is reflected in the attempt to visually capture this metamorphosis through aesthetic derivatives of everyday objects.

Hey! I'm just a guy with a camera, but I have
a lot of other hobbies as well.

So what else do you do? Have you ever shot a
movie?

Yeah, I did, and it's still one of my
favorite things to do.

Cool. So how did that happen? Did someone
just ask you or did you apply somewhere?

I've been shooting since I was in high
school, so I applied to be a student at the
School of Visual Arts (SVA) in New York

Damn that's impressive! So what degree did
you get?

what philip did

Truth often implies a sense of objectiveness despite its subjective aspects. This installation explores artificial decision-making as a device to shape truth.
